

MIGUEL L. GRAU

PERSONAL STATEMENT

I am a bioinformatic researcher currently working at Okinawa Institute of Science and Technology in Japan. My main task consists in the analysis of Next Generation Sequencing data, especially focused in the evolution aspects.

I design pipelines to solve a huge variety of ecological questions. These tasks include the use of illumina/pacbio data to perform new assemblies, transcriptome analysis/annotation, SNPs population genomics studies, phylogenetics, analysis of positive selection genes, mitochondrial genomes and proteins analysis across distinct related species, among others.

The pipelines make use of multiple software tools, as well as our own libraries and scripts, using mainly (and not only) Python and R.

EDUCATION & CERTIFICATION

MASTER OF SCIENCE IN BIOINFORMATICS & BIostatISTICS. UNIVERSITY OF BARCELONA. 2014-2016.

Computational Genomics, Omics data analysis, Regression analysis, Statistical inference, Molecular and Structural biology, Multivariate analysis, Functional genomics, Computer programming, R, Python.

BSC IN COMPUTER SYSTEMS ENGINEERING. COMPUTER SCIENCE. UNIVERSITAT JAUME I. 2017-2011

Advanced programming, Design of databases, Data structure, Advanced mathematics, Statistics.

SPECIALIZATION PROGRAMING COURSE IN IOS (200H). UNIVERSITAT JAUME I. 2012-2013

Advanced programming, Design of databases, Data structure, Advanced mathematics, Statistics.

PROGRAMING COURSE. ADVANCED JAVA (80H). UNIVERSITAT JAUME I. 2012

Java Server Pages (JSP), XML, Servlets, DB access with JDBC.

PROGRAMING COURSE. PHP (40H). UNIVERSITAT JAUME I. 2009

JOB EXPERIENCES

RESEARCH TECHNICIAN. BIOINFORMATICS. OKINAWA INSTITUTE OF SCIENCE AND TECHNOLOGY. JAPAN.

2013 – present

Build pipelines to analyze NGS data for the [Ecology and Evolution Unit](#).

**RESEARCH TECHNICIAN. GROUP OF PHOTOVOLTAIC AND OPTOELECTRONIC DEVICES.
UNIVERSITY JAUME I. SPAIN**

2010 – 2013

Java desktop applications, Design of web-tools for characterization of photovoltaic cells. Technical support for researchers, #C external libraries developing.

FELLOWSHIP. LAB TECHNICIAN. DEPARTMENT OF PHYSICS. UNIVERSITY JAUME I. SPAIN

2009 – 2010

Java applets.
